

MASUD AL IMRAN

Full Stack Engineer — Backend Focused

SUMMARY

Full stack engineer with 6+ years of experience, specialising in enterprise PHP backend systems and data integration. Currently build and maintain large-scale product-syndication services for a multinational apparel manufacturer, projecting PIM data into cloud datastores across 13 sales channels and 17 locales. Delivered 17+ commercial web applications end to end. Strong in API design, third-party / vendor integration, and production server operations, with fully asynchronous experience working across time zones with overseas teams.

EXPERIENCE

GILDAN

2024 – Present

Analyst, Digital Operations

- Design and maintain a **Symfony 7 / PHP 8.2** product-syndication engine projecting **Pimcore PIM** data into **Azure CosmosDB** across **13 channels and 17 locales**, serving web, mobile, and search (FredHopper), with 100+ unit tests.
- Author technical proposals adopted by stakeholders — including a cross-system image-delivery performance optimisation, a schema design porting a legacy ranking feature into new architecture, and an internal tool removing a process bottleneck.
- Engineered a CosmosDB projection publisher for a parallel **Yii2 hexagonal-architecture** service, and built an **i18n localisation pipeline** covering 17 regions.
- Act as integration lead with an external web vendor — translating marketing and legal requirements into technical specifications and reviewing delivered changes.

Symfony 7, PHP 8.2, Azure CosmosDB, Pimcore, Redis, Yii2, GraphQL, Angular, Playwright

BISMIB TECHNOLOGY

2019 – 2024

Full Stack Web Developer

- Delivered 15+ commercial websites and web applications end to end, across **Laravel, Node.js / Express, React, Next.js, Vue, and Angular**.
- Owned production infrastructure on AWS (EC2, S3) and DigitalOcean — deployments, SSL, and resolving live-site incidents (malware compromise, DNS/SSL migration, high-CPU outages) via Nginx/PHP-FPM tuning.
- Handled database design and management across MySQL, PostgreSQL, and MongoDB, plus SEO and deployment support.

Laravel, Node.js, React, Next.js, Vue, MySQL, MongoDB, AWS, DigitalOcean, WordPress

MDM TRADERS LIMITED

2018 – 2019

Network Engineer

- Configured Cisco routing and switching, managed IP assignment, and set up Cambium radio links for client connectivity.

SKILLS

Backend

PHP 8.2+ (Symfony 7, Laravel, Yii2), Node.js (Express).
Hexagonal / clean architecture,
REST & GraphQL APIs, unit testing.

Frontend

JavaScript / TypeScript, React, Next.js, Angular, Vue, Tailwind CSS, Material UI.

Databases

Azure CosmosDB, MySQL, PostgreSQL, MongoDB, Redis.

Cloud & DevOps

Azure (CosmosDB, Blob Storage), AWS (EC2, S3), Docker, Nginx, PHP-FPM, CI/CD, Linux server administration.

Platforms & Tools

Pimcore PIM, WordPress, Sanity, Swagger / OpenAPI, Git, Playwright.

Mobile

React Native.

EDUCATION

B.Sc. in Computer Science & Engineering

2014 – 2018
BRAC University, Dhaka

CLOUD & DEVOPS

Server & Deployment

LAMP stack deployment on AWS EC2 · MERN stack deployment on VPS · WordPress on VPS · SSL provisioning on DigitalOcean Droplets.

Operations

Nginx / PHP-FPM tuning · FastCGI caching · live-incident recovery (malware, DNS/SSL, high-CPU) · cron and performance optimisation.
